ELKO MAN KILLED WHEN CAR TURNS TURTLE	Bid	Ask
John Butler, a well known resident of Elko, was killed near Lamolite when an automobile which he was driving went off a bank and landed upside down, plunging him under the car. H. P. Whimale, Frank Robinson and H. J. Jekay, who were with him at the time, escaped uninjured, but were badly shaken up. The car was coming about thirty miles an hour when it struck the bank and turned over.

Rise in Silver Will Last, In the Estimation of Hig Financial Writers

Silver quotations have continued their advance, touching 77 1/2 cents, the highest figure since 1893, and the impression in well-informed circles is that the rise in the market value of the metal is destined to endure for some time to come. The European war has created enlarged demands for silver from a number of sources. It has already been pointed out that different countries have greatly increased their silver coinage to fill the vacuum left by the withdrawal of gold from circulation through both the accumulations in government banks and private hoarding. A factor in this connection is the necessity of paying troops engaged in active operations on the various war fronts in silver. A further potent cause of the recent strength of the market is the fact that the Egyptian government has given the silver rupee a legal tender status, with the result that large amounts of coin have been taken to Egypt and India. This has necessitated considerable purchases of silver in London for account of the Indian government, the indications being that the cause in question will continue to exercise a strengthening influence upon the silver situation for some time to come. The supply of the metal from the United States, Canada and other producing countries stimulated by the conditions in question, is by no means excessive. In fact, the practical elimination of the large output of silver which would come from Mexico if normal conditions prevailed in that distracted land constitutes an element of some importance in the matter. Moreover, authorities on the subject seem to feel that the ending of the European war, when it is reached, may tend to create additional requirements for silver for coinage and render it quite probable that the rise in the metal's price is far from having culminated.—Bradstreet's, May 6th.

EAGLES GATHERING FOR CONVENTION

FLOCKING OF THE MEMBERS TO ANNUAL MEETING IN THE SOUTHERN CAMP

All roads lead to Rome but this morning the rush of travel was in the direction of Goldfield where the Eagles are holding their convention. It is estimated that several hundred delegates and guests took advantage of the occasion but most of them traveled in their own motor cars and a comparatively few paid toll to the railroad. The Tonopah delegation including several of the state officers joined the northern contingent at the station this morning and acted as hosts until the arrival in the gold camp. The local bunch included W. B. Evans, F. J. Cavanaugh, R. Petroni and Chas. L. Richards.

DANNY IS WORKING HARD FOR BATTLE

Word received from Goldfield states that Danny Mathews, who meets Johnny McCarthy here Thursday evening in a ten round bout, is working his hardest to condition himself for his ten round battle with the San Franciscan. Johnny, himself, is confident of putting a stop to Danny's winning streak. A large number of fight fans in Goldfield are making preparations to come here to cheer their idol into victory.

The wrestling match is also creating a lot of interest. Both of the men are well known here and have a long record. Chalky Miller, the colored boy, who meets Kid Holmes of San Francisco in the six round special is working out daily with Johnny McCarthy at the Cottage bar.

HOUSEHOLD GOODS WANTED FOR A DEPENDENT FAMILY

The ladies of the aid society are looking for some generous soul to offer any portion of household goods that will supply the wants of a family of eight that arrived here yesterday from Willow Creek. They have taken an unfurnished house and a bed and mattress with springs would be welcome. A wash boiler is suggested as suitable. Any one having anything to offer is requested to phone the police station.

MILLER MOUNTAIN LOOKS ATTRACTIVE

ESTIMATED THERE IS SUFFICIENT ORE TO RUN MILL FOR NEXT THREE YEARS

Frank Pittman has returned from a visit to the property of the Miller Mountain Mining company near Basalt and is so impressed with the prospects of the company that he and associates have bought a large interest. Mr. Pittman says the property has a main body of silver-lead ore fully 50 feet wide and 200 feet long. The mass carries lead, silver and a small percentage of zinc which can be concentrated. He was very much impressed with the zinc ledge on another part of the group and also the molybdenite which is the only deposit of this rare metal known to exist in Nevada. The views of Mr. Pittman confirm the statements of Mr. Malmquist, which appeared in the Bonanza last week.

MOTHERS' DAY IS WELL OBSERVED

The Presbyterian church yesterday Sunday school had the usual large attendance.

Morning sermon from the text, "Thou hast set thy feet in a large room." Psalm 31:8. Miss Audrey Marshall sang a solo, "Jesus, Lover of My Soul," as the special in music.

Mother's day service in the evening. The address by J. S. Sanders was listened to very attentively by the large audience. The music besides some hymns by the congregation and choir, comprised a quartet by Mrs. Chandler, Mrs. Bayless, Mr. Bayless and Mr. Kanouse.

The choir sang an anthem and the pastor sang a solo, "My Mother's Prayer." Each person upon entering was presented with a white carnation, the emblem of the day.

FRED BRADSHAW, general manager, Clyde Heller, president of the Tonopah Belmont Development company and George H. Garrey, geologist retained by the same company came in this morning from the Prince Rupert country.

NOTICE TO MASONS

In addition to the public lecture to be given Monday night, a private lecture will be given by Mr. Maccombe in the Masonic hall on Tuesday evening, May 16, 8 p. m., for Masons only. Please attend. Adv. M123

MARKET GOSSIP

Don't forget about Monarch. They are working in three different faces and have three good chances for ore. Today they cut high grade stringers. Any showing of commercial ore would easily put Monarch to twenty-five cents. We advise to buy it.

FLOTATION SYSTEM FOR BONNIE CLARE

TONOPAH COMPANY LEASES THE DUMPS OF OLD BONNIE CLARE MINE

George W. Quigley, John Manion and H. M. Clifford have secured a lease on the tailings and dumps of the old Bonnie Clare and will at once proceed to install a flotation plant. Tomorrow morning a gang of carpenters in charge of William Thall will leave for the southern end of the county to begin construction of tanks and other equipment.

There is a temporary dearth of carpenters both in Tonopah and Goldfield, owing to the amount of new work that is going on in the outlying camps but it is not advisable for carpenters from other points to come here as none of the work will occupy the men for any length of time.

The lease carries with it the dump and tailings of the Jumbo Extension, which are estimated to be worth something around \$100,000. When this accumulation was gathered the tailings assayed \$3.00 per ton, but the steady advance in silver and copper makes the deposits worth at least \$4.00 per tons for 25,000 tons. The lessees expect to make sufficient from the Jumbo Ex. residue to compensate them for the entire cost of installing the flotation plant and leave them with the mill for other operations. The Bonnie Clare company is said to have uncovered a large body of shipping ore on the Rattlesnake and Courbet claims belonging to the company that built the mill. This orebody was disclosed by prospecting along the footwall where leasers had done considerable work but had failed to explore the footwall side, confining their operations to the hanging wall.

COOLEST PLACE IN TOWN

Mathews' candy store is easily the coolest place in the city. It is artistically furnished and is indeed a pleasant place to while away a little time before or after the show, it being situated just east of the Butler theater. The store has a well equipped soda fountain and serves delicious ice cream and home made confectionery. Orders for flowers received.

LOUIS GORDON, president and Harry G. Mayer, secretary of the Round Mountain Mining company passed through this morning en route to Goldfield to attend the annual meeting held there this morning. They were accompanied by F. L. Kidder, of Chicago, one of the large stockholders of the company. They will pay an official visit to the property tomorrow.

AMUSEMENTS

BUTLER THEATER

"The Upstart," a five part Metro feature production with Marguerite Snow in the stellar role, and featuring George Le Guere, will be shown at the Butler this evening. This feature is a picturization of the play of the same name by Thomas Barry, which had such a successful run at the Maxine Elliott theater in New York City. It is distinctly a novelty, being the first production of its kind released by this company. There are many strong situations, which lend contrast to the delightful humor, which is sustained throughout. "The Upstart" was produced by the Rolfe Photoplays, Inc., and directed by Edwin Carewe, who is one of the foremost directors in the country. An exceptionally strong supporting cast was selected for this feature, including James Lackaye, Frederick Summer and Frederick Sittenham. Marguerite Snow is a great favorite in Tonopah, being well and favorably known here from the time she starred in "The Million Dollar Mystery." The preliminary reel will be Pathé Weekly.

Tomorrow, Burton Holmes travel pictures, "Going Sober in San Francisco," which will be a very interesting reel, and Marie Duro, the famous Frohman star, in "The White Pearl," a romance of the Orient.

WACO, Tex., May 15.—With 15,000 witnesses, including women, and children, Jesse Washington, a negro boy who confessed to the criminal assault and murder of Mrs. Lucy Fryar, was taken from the court room and burned in the public square. The officers were swept off their feet. After death the remains were dragged through the streets.

MRS. E. L. TIMLIN, a pioneer of Austin, Nevada and also Tonopah, accompanied by her daughter, Miss Kitty A. Timlin, left this morning for San Francisco, where Mrs. Timlin goes for treatment by a specialist for a cataract that has obscured the sight of both eyes.
